After Many Years, Rajni Ben Reunited With Her Family

“I never believed that my mother would be able to recognize me again...”

Many years ago, Rajni Ben was brought to Manav Parivar Trust by her family for treatment, care, and shelter. At that time, her mental condition was unstable, and she was unable to recognize even her own family members.

At Manav Parivar Trust, Rajni Ben received continuous safe shelter, regular meals, medical treatment, medicines, mental health care, and necessary support. Over time, her mental condition improved significantly, and today, she is once again able to recognize her family.

Today, an emotional moment arrived when her son came to take his mother back home. The moment Rajni Ben saw her son, she immediately recognized him. After so many years, this heartfelt reunion between a mother and her son touched everyone's hearts.

Her son expressed his emotions by saying:

“I never believed that my mother would be able to recognize me again. Thank you so much for all the care and treatment you provided to her.”

A family reunited once again...

What greater happiness could there be than this?

“After waiting for many years, Rajni Ben has finally been reunited with her family today.”
